### Mrs. Barry Lectures at Presbyterian Church.

As advertised for many days in the columns of the News, Mrs. Barry appeared at the First Presbyterian church Thursday evening. The lecture was given under the auspices of XX Century Club for the benefit of the Public Library. Mrs. Barry's subject was "The Drama as an Art." She began with the origin of the drama, explained its development and its technique, classifying the various forms and emphasizing the art in dramatic literature. She held her audience spell bound for more than an hour, and every body departed feeling they had indeed attended a literary feast.

Mrs. Barry will give a reading of "As You Like It" this evening and she should be greeted with a crowded house.

### GOVERNMENT TO PAY INDIANS Chickasha-Chictaw Per Capita Payments Will Begin This Spring

Muskogee, Okla., March 5.—Another Chickasaw-Chictaw per capita payment will be made by the government to the members of those tribes some time after May 1, and rolls are now being prepared in the Indian offices here.

In all, \$500,000 will be paid. About 25,000 Indians will be paid a per capita of \$20. The money is that derived from the sale of townsites in the Choctaw and Chickasaw nations. Payment will be made by a special agent who will probably travel from town to town.

The big million dollar payment made a year ago was under the supervision of the United States Indian agent. It is estimated that it will require several months to get the roll in shape.

## 200 DEMOCRATS ASSEMBLE

SUCH INTEREST COULDN'T HELP BUT IMPRESS ONE THAT THE PEOPLE MEAN BUSINESS

### A LIBERAL PRIMARY

Every White Man and Indian in Ada Invited to Participate in the Primary.

Two hundred, or thereabout, democrats assembled at the court house last Thursday night and discussed the proposition whether there should be held a democratic primary for the purpose of selecting a solid democratic ticket before the city election to occur on Saturday, March, the 28th.

Lem Little, the popular grocery merchant, who is the vice president of the city democratic club, presided over the meeting. Curtis King, the accommodating secretary of the club, was at his post as he ever was on any proposition of interest to his party.

The Hon. Tom Holt, who has been very active in promoting Ada's status up to the city of the first class, officially stated to the meeting that the governor had issued an election proclamation calling for an election in Ada on the 28th of this month. Then for the information of all, he read a copy of the late bill under the authority of which the election has been called.

The chairman called on Ada's big "nester" democrat, Judge Furman, to address the meeting and he responded, the principle part of his address including a strong advocacy of party organization, and that the club should call a city democratic primary.

There were calls for the Hon. J. W. Bolen when Mr. Furman had concluded. Judge Bolen spoke strongly against the idea of a democratic primary, offering in argument to sustain his position: 1st, the fact of the very limited time preceding the general city election on the 28th inst. to hold a primary; 2nd, that under the law, the primary could not be made legal and that a primary not safe guarded might defeat the real will of the citizens most vitally interested. Mr. Bolen contended that many leading republicans of the city had declared that they recognized that they were vastly in the minority in Ada and that should the democrats not call a primary, they would warrant that no republican would contest for a single office, but as loyal citizens of Ada, they invited the democrats to withhold a primary election, that they might participate in the regular city election helping to elect the democrats whom they thought would come more nearly conserving the best interests of the city.

When Judge Bolen had finished, the Hon. Tom D. McKeown, the pathfinder of peace among the members of the party, was called out and responding he stated that it occurred to him that a compromise be reached as between the conflicting ideas of Judges Furman and Bolen. Said Tom: Why not have a primary in which only democrats should be candidates, but it being understood that all citizens, irrespective of politics, be invited to vote. This idea seemed to meet with general favor among the 200 democrats present. Judge Furman made a motion that there should be held a primary on Tuesday the 17th day of March. Otis Weaver moved to amend the motion that a primary should be held by adding, that it is the direction of the democratic club that the pledge only should appear at the head of the ticket, "I agree to support the nominees of this primary," and that all white and Indian citizens residing in Ada be invited to participate. This amendment was accepted and the motion as amended unanimously carried.

Col. Geo. Thompson moved that the chair appoint an executive committee composed of one member from each ward and that the four members appointed select a fifth member from the city at large. The chair appointed: 1st ward, W. H. Ebey; 2nd ward, A. M. Croxton; 3rd ward, George West; 4th ward, Col. Geo. Thompson. The meeting adjourned in high good humor.

At the moment the news goes to press, Geo. A. Harrison drops by and directs that the announcement column show that he is a candidate for mayor subject to the primary next Tuesday week.

### SEEK GOOD ROADS LEGISLATION

Chickasha-Chictaw Per Capita Pay-Law Permitting State to Condemn Allotted Land.

Guthrie, Ok., March 5.—Without action on the part of congress permitting the state to condemn allotted land and the land of minors for public highway purposes, it is held little can be done with the good roads problem on the eastern side of the state. A memorial to congress asking for such legislation is pending here. Members of the Oklahoma Good Roads Association, who have been following the situation, believe the legislature will make very little change in the present state general road law, but that two other measures will be put through, one authorizing the working of the state convicts on the public highways and another for the issue of bonds by counties for good roads purposes.

"Members of the legislature," said Col. Sidney Suggs of Ardmore, state president for the national good roads movement, "are seeking some way to work the roads, while the association, as far as the eastern side of the state is concerned, is looking for a road to work. Should we reach the purchase stage we will find that a fifty foot road will mean six acres to the mile, at an average cost of \$15 per acre."

### XX Century Club Gives a Tea.

Thursday afternoon the ladies of the XX Century Club gave an informal tea at Mrs. Furman's to allow the ladies of Ada to meet Mrs. Maggie E. Barry of Sherman, who had been engaged to deliver a series of lectures for the benefit of the Public Library. With Mrs. Barry in the receiving line were the officers of the club and the hostess, while Mrs. Brownall poured tea in the dining room assisted by Mrs. Thornton and Mrs. Beard. Other members of the club assisted throughout the house in entertaining the guests. About 60 ladies called from 3 to 4 p. m. and as they departed many expressions were heard of the charming personality of the guest of honor and of a pleasant afternoon with club women of Ada.

### Many Want to Marry.

Those who procured license since this time Thursday are Chas. W. Sharrock and Bessie Carter, Jesse; J. C. George and Eunice Bishop, Mill Creek; D. W. Shockley and Hattie Maxwell, Dolburg; Dee Maxwell and Della Flick, Stratford; Edgar L. Pegg, Allen and Sophia L. Lee Citra.

### The Conversion of a Prince.

Tonight Evangelist Ewell will preach on the conversion of a prince at 7:30 at the First Christian Church. Each night the evangelist is preaching a stronger and more effective sermon. If great good religiously and morally does not come to every one who listens to his stirring sermons it is not the fault of the evangelist.

He always has a message for his audience that is helpful and inspiring.

### New Firm Here.

The Louis Cappin Bankrupt Stock Co. of Shawnee have purchased the mammoth bankrupt stock of Bocher and Werner at Shawnee also, the Bocher stock in this city and they will on about the 12th put the entire stock on sale in the Bocher store on east Main street. Mr. H. I. Blumen that is here today making arrangements for the opening of the enterprise and he requests the News readers to keep an eye open for their advertisements.

# Ada Evening News.

OTIS E. WEAVER, Editor and Owner.

Entered as second-class mail matter March 28 1904, at the postoffice at Ada, Oklahoma, under the act of Congress March 3, 1879.

## MEETING OF MEANING.

Great Interest, General Unanimous Concurrence, a Lowering of the Party's Bars Principal Features.

At the meeting of the city democratic club 200 strong last evening an unusual and gratifying interest was shown in the municipal affairs of this city. It appears that the people have come to realize that Ada has now reached that size and stage when all the affairs of the city which naturally influence its general growth and advancement must receive that treatment which will award the best possible results. The large attendance at the meeting last night composed almost wholly of honest laboring, business and professional interests within the democratic party of the city most certainly foreboded that it is now emphatically recognized that the executive administration of the business of the city must be constructed on a broader basis than the mere collection of fine and costs. The most remarkable thing about this democratic meeting composed of intense democratic partisans appeared when it was discerned that even their party zeal in local affairs would not permit them to ostracize any white or Indian citizen from a participation in the selection of the officers of the city at this extremely important time when it is the paramount ambition of every true citizen of Ada, regardless of politics, to see the city's welfare conserved.

When it was unanimously agreed last night by a rising vote that the primary test be simply an agreement printed at the head of the ticket that the voter should support the nominees and that all white and Indian citizens who were qualified voters in the city, be invited to participate in the selection of a ticket, right then, it was a tacit agreement, no more or no less, that there should be a "white man's primary" before which the list of candidates should be composed of democrats.

## STREETS SIDEWALKLESS.

The News has for a long time desisted from mentioning it, for it is a serious reflection on a city of Ada's reputation abroad, but "it is true: 't is true: 't is pity; and pity 't is 't is true." Ada, it is stated on good authority has less side walks than any other town one-half the size of her in the new state. This, notwithstanding the splendid churches, nice homes, inviting adaptability of the streets for side walk building and the cheapest and best side walk construction material in the United States. Think of the quality and quantity of our lime stone rock the cheap high grade home manufactured brick, and our own cement factory with cement at cost offered, then think, oh, well think, just think of having had a mayor whose bump of official comprehension appears to swell alone on so much per one drunk fine and fees, the mayor's own fee it is alleged, generally exceeding the fine which goes to the city.

Remember the date of March the 17th, next Tuesday week. The most important occurrence within Ada's own initiative, ever performed will be that of the city primary next Tuesday week. Be careful how you vote; vote for the good of Ada, the city of bright opportunity.

### Frisco Proposition.

The Frisco has a proposition to the 25,000 Club of this city, making a low rate on material for macadamizing Main street and the avenues crossing the same for a distance of two blocks of this city. A proposition to move the Francis shops to Ada, if only the ground and a few thousand were furnished, would be much more interesting.

### For Mayor.

There appears to be a general movement in the city today in which business and laboring citizens are alike interested and participating. This movement is the frank and open discussion among the true and tried men of various honest occupations as to the most available man for mayor. With these citizens who are interested in getting out a candidate for mayor, the available man is not so much the man with the greatest popularity, but the man who has an undisputed reputation for unswerving integrity and sound, progressive business judgment. The information comes to the News that such men as W. H. Ebey, Tom D. McKeown, E. W. Hardin, J. B. Jiles, Henry Collins, Shed Chapman, W. L. Reed, Geo. Harrison, W. W. Sledge, and others are being mentioned as good mayoralty material. The News, with the greatest respect for all others opinions, begs leave to observe that among this list stand men, the like of whom, the public must look to construct here at Ada, a city.

It makes no difference how long you've suffered, or what failed to cure you. Hollister's Rocky Mountain Tea makes sick, weak men, women and children strong and healthy. Its done so for thousands, why not for you? 35c Tea or Tablets. G. M. Ramsey.

# TO THE PUBLIC

We have purchased from W. C. ex-Congressman Flynn for delegates at large to Chicago.

### THE ROFF EAGLE.

Makes Some Observations Below About Affairs in Ada Comparisons Drawn.

There may be a city in the broad state of Oklahoma that can boast of a higher type of citizens than Ada, but we arise to remark that we once lived in Missouri.

The springs fights opened last Monday, and two events were pulled off that afternoon. From what we can learn honors were about even in both cases.

The police court has been doing a rushing business of late as twenty violations have been docketed during the past week, and in the cases that have been disposed of but one resulted in an acquittal.

The above editorial and two news items clipped from the same issue of the Ada Democrat. The same week this was printed Mr. Carlton Weaver, who represented this district in the constitutional convention and who is generally known to be a citizen of a very high type and a christian gentleman, was attacked in a drinking joint in Ada, knocked down by a ruffian, and because he defended himself was dragged up before the mayor and fined. Thus showing that the tough element is in the majority in Ada, otherwise they would not elect officers who sympathize with that element. If the editor of the Democrat will come down to Roff we will show him a town which has not had over twenty violations docketed in a year, and only two since statehood. The citizens of Roff may not be of a higher type than those of Ada, but they have undoubtedly reached a higher plane of civilization.—Roff Eagle.

### EIGHT HOURS' WORK FOR WOMEN

Williams of Lawton Would Regulate Time by Law.

Guthrie, Ok., March 5.—Representative J. Roy Williams of Lawton has introduced a measure providing a uniform eight-hour employment law for females and prescribing fines of from \$10 to \$25 for violations by employers. The law covers women in offices, mercantile and mechanical establishments, telephone exchanges, hotels and restaurants. Two measures have been introduced by Representative W. A. Durant to prevent corporations owning interests in each other. No bank may be designated a depository for state funds a majority of whose stock is owned by another corporation, either foreign or domestic, and no bank 25 per cent of whose stock is thus controlled will be entitled to the benefits of the state guaranty deposit law.

Under the provisions of Durant's second bill, the ownership of the capital stock of any corporation doing business in the state by an corporation is forbidden. All corporations must keep offices in the state and file semi-annual statements with the corporation commission.

## FILIPINO DELEGATE TO CONGRESS

Copyright by Waldon Fawcett.

Pablo Ocampo De Leon, the delegate selected by the Filipino assembly, is like his colleague, a lawyer by profession, a native of Manila and a member of a well-to-do family. He was also a Filipino patriot, was imprisoned by the Spaniards and afterwards exiled by the Americans, but after two years was allowed to return to Manila. He gave up politics for a time and devoted himself to his law practice, but he became director of La Patria and drifted back into public affairs and was elected to the assembly by the Nacionalistas. Mr. Ocampo is practically a pure-blooded Filipino. The majority of the assembly were anxious to have their delegate a true representative of their race. Mr. Ocampo was further favored both by his radically patriotic record and by his present conservatism. The assembly leaders considered it good policy to send a moderate nationalist to Washington. These two delegates will endeavor to obtain from congress the reduction of the import duty on Filipino sugar and tobacco. They say the cattle plague has killed off 90 per cent. of the working animals, and that the Filipinos are in a worse position than they have been for 30 years. They are also interested in the Japanese question, being, like all the Japcated Filipinos, suspicious of the Japanese.

## TO SAVE THE BUFFALO.

APPEAL ISSUED FOR PRESERVATION OF AMERICAN BEAST.

Plan Proposed Is to Have Herds Established on Suitable Ranges Under Government Auspices.

Meriden, N. H.—The American Bison society, with headquarters in this city, has issued an appeal for the perpetuation of the American buffalo. To best preserve the animal the society has planned a systematic campaign of ambitious proportions.

The president of the United States is the honorary president of the organization, and the honorary vice-president is his excellency Earl Grey, governor general of Canada. The secretary is Ernest Harold Baynes, whose post office address is Sunset Ridge, Meriden, N. H.

The following is an extract from an address issued by the society:

"The American bison or buffalo, our grandest native animal, is in grave danger of becoming extinct, and it is the duty of the people of to-day to preserve for future generations this picturesque wild creature, which has played so conspicuous a part in the history of America. We owe it to our descendants that all possible effort shall now be made looking to the perpetual increase and preservation of this noble animal, whose passing must otherwise soon be a matter of universal and lasting regret.

"It is conceded, particularly by all authorities, that, owing to the uncertainties of human life and the changes in fortune and in policy among private individuals and private corporations, the buffalo cannot be perpetuated for centuries, and preserved from ultimate extinction, save under government auspices. At present nearly all the buffaloes in the United States are in private hands, and with few

exceptions are for sale to anyone offering a reasonable price. Many are sold every year, some for propagating purposes, and others to the butcher and the taxidermist. Moreover, most of them are in a few comparatively large herds, and should contagious disease at any time strike one of these, so great a percentage of the now remaining buffaloes might be wiped out at one blow as to make the perpetuation of the remainder practically an impossibility.

"In the belief that Americans generally will be found in sympathy with a carefully planned movement to save what might well be termed their national animal, and in order that all who desire may take part in the work of preservation, there was recently organized in New York city the American Bison society, which in accordance with its constitution has for its object 'the permanent preservation and increase of the American bison.

"This society will seek to have established in widely separated localities, under government auspices, several herds of buffalo, on suitable ranges (preferably government land), such ranges to be chosen from a large number that have been recommended by competent persons. These herds, under proper management, should increase until the race was no longer in danger of extinction.

"With this end in view, the American Bison society has now begun an active campaign. A bill calling for national aid in the establishing of several buffalo herds is already under consideration. In the meantime the society purposes to make a determined effort to organize the interest of the public in the fate of the American buffalo, and presently bring it to bear in such a manner that it will result in the governments of both the United States and Canada taking active measures to insure that animal's preservation and increase.

"The officers of the society are prepared to do the work incidental to this campaign, but, in order that this work may be carried on promptly and vigorously, they must have the support of those whom they believe to be in sympathy with them. This support can best be given by joining the American Bison society and by urging others to join it. The work to be done requires money, and for this the society depends entirely upon membership fees and dues and occasional private subscriptions.

"The extinction of the buffalo would be an irreparable loss to American fauna; more than that, it would be a disgrace to our country. The passing of any great and noble animal is a calamity which all thoughtful persons should seek to avert. But the buffalo has a special claim upon us, inasmuch as the great service he rendered the country in early times were repaid with indescribable brutality and persecution. By a series of cold blooded massacres never equaled by any other nation calling itself civilized, a great race of animals numbering countless millions was reduced to numbers so pitifully small that for a time it was regarded as practically extinct. The least we can do now to partly atone for this ruthless slaughter is to join in measures to prevent what must otherwise be the final result of perhaps the greatest wrong ever inflicted by man upon a valuable wild animal."

## SAVIOR OF OUR NAVY

INVENTOR HAS NOVEL DEVICE TO PROTECT BATTLESHIPS.

Proposes Chain Armor of Invisible Links to Ward Off Attacks of Hostile Torpedoes — Wants \$75,000 for His Secret.

Washington.—William Wilson of Paterson, N. J., appeared at the capitol the other day in the guise of the savior of the United States navy.

He has walked through the dark valleys that lie at the bottom of the sea. He has stood, hand in hand with a mermaid, on the crests of submerged mountains. He has communed with the shark and the scuttlefish. He has learned from the swordfish how the waters of the mighty ocean may be hacked to pieces. The secrets of the seas are his and the mysteries of the waters are like A B C to him.

Therefore, William Wilson has thought it to be a grievous error to let this knowledge go for naught. William Wilson did not let it go for naught. He has invented a device that will mean millions, possibly billions, of dollars to the government's capacious pocket.

William Wilson has an invention that, at a nominal cost, will so fortify the ships of the American navy as to make the swiftest torpedoes of other navies mere minnows nibbling in vain at the sides of Uncle Sam's men-of-war. The strongest subsurface projectile will strike the ships and fall; vain and useless, to the bottom of the ocean when once the ships have been provided with the new invention.

William Wilson's contrivance is in the nature of an endless chain. It consists of links visible and invisible. It is to be hung around the hulks of vessel, and, in time of battle, it is to be dropped into the sea, completely surrounding the part of the ship that is under water. Torpedoes will get mixed up in this chain-armor effect, kick against the links in useless energy, signal the surface that there's nothing doing in the destruction line, and then drop out of existence forever.

But William Wilson cannot give up his knowledge for nothing. He carries in every pocket copies of a bill he wants introduced providing that to William Wilson \$75,000 shall be given and that, in return for this paltry sum, William Wilson shall drop in on navy department officials and teach them how the ships of the navy shall be made impregnable.

William Wilson has a sublime confidence in his invention. He has pictures of it in sections, and as a whole. He has a water color painting of a battleship safeguarded by the chain-like fort.

He is a stout man, of medium-height, with whiskers that look like the beard of Neptune. On his face there is a crimson hue that comes from braving the dangers of the deep, conversing with mermaids on the crests of submerged mountains and communing with the shark. He smiles but rarely. He is tremendously in earnest.

"The invention is entirely reliable," he explained. "I have tested it on a rowboat in Chesapeake bay. It will not injure a ship's speed, and it is absolutely impossible for a torpedo to make any impression on it. I am giving it away, when I say the government can have it for \$75,000."

William Wilson, however, has found no enthusiasm at the capitol regarding his invention. No member of congress cares to introduce the bill he carries in his pockets. One member told him he had been approached by John M. Jones of New York, who wanted \$50,000 to build an airship, and, having refused John Jones' request, he would have to refuse William Wilson's.

As William Wilson retired from the abode of the lawmakers, declaring he would return to take up again the fight for recognition, an irreverent employe of the capitol sang a few bars from "Swim Out, O'Grady."

But William Wilson regarded him with an expression of profound pity.

**\$150,000 SCRAP OF PAPER.**

Claimant to Fortune Says He Found Will Under Floor Oilcloth.

Johnstown, Pa.—A peculiar contest was argued before Register and Recorder Griffith, as probate judge, among the authenticity of the writing purporting to be the will of Mrs. Frances Slick of Conemaugh township was in dispute.

An estate worth \$150,000 is involved. The woman died a few months ago, and no will could be found until lately, when the paper in dispute devising the estate to James Warfield of Conemaugh township was found under a floor oilcloth of her home.

Forty heirs under the interstate law contest Warfield's claim. No decision has been reached.

**Wear Gems Outside Furs.**

New York.—A new fashion set by Mrs. Stuyvesant Fish interested the tea drinkers in the Plaza the other afternoon.

Mrs. Fish arrived at the Fifty-eighth street entrance of the Plaza when the rooms were thronged. She wore a long coat of broadtail fastened by a diamond ornament of great size. Except for these gems there was no dash of color to relieve the costume.

In a flash this innovation had sunk deep in the hearts of other women, and the way in which jewels were quickly shifted after Mrs. Fish had been seen, seemed to indicate that in future gems will not hide their light under fur coats.

## FILIPINO DELEGATE TO CONGRESS

Copyright by Waldon Fawcett.

Benito Legarda, who has been selected by the Filipino commission, composed of four Americans and three Filipinos, as one of the delegates to represent the Philippine Islands in the United States congress, was formerly one of Aguinaldo's most trusted lieutenants. He was for a time vice-president and treasurer of the Malolos congress, but he soon realized the hopelessness of armed opposition to American sovereignty, and so resigned to become leader of the Federal party, whose policy was submission. In recognition of his services he was selected as one of the three Filipinos on the Philippine commission when civil government was organized in 1901, a position which he has held ever since. Like the rest of his party he is in favor of independence, but only when the United States is satisfied that the Filipinos are ready for it. He is a man of middle stature, with black hair and mustache slightly touched with gray. He has the refinement that is born in a long line of aristocratic ancestors and the culture of a man who has traveled extensively. He is 54 years of age, was born in Manila and has been admitted to the bar, although he has long since given up practice to attend to his business interests. He is very wealthy.

## WILL INVADE CAPITAL

OSAGE CHIEFS WILL PLEAD FOR THE PAPOOSE.

Going to Washington to Ask for Land for Recent Arrivals in Tribe—Want Restrictions on Sale of Property Removed.

Guthrie, Okla.—Washington is soon to be visited by one of the most imposing and prominent Indian delegations in recent years.

It will be composed entirely of Osage chiefs and official interpreters, and while they will protest when there against the removal of restrictions on the sale of Indian lands their principal mission is one which to the tribe itself is of far greater importance—the presentation of a request that all Indian babies born during the past half year be permitted to share in the land allotments.

The stork has been unusually active among the Osages during the past six months, and the full blood element is anxious that each child be given at least one-quarter section of land.

The delegation of chiefs will be composed of ten members in addition to the interpreters. Black Dog, the Indian member of the allotting commission; Brave, the assistant chief of the tribe; Bacon Rind, and O-to-hah-wa-la, also ex-chiefs, will be on the delegation, as they are among the most influential with Washington officials.

The full blood council will elect the ten and name the interpreter who will accompany them. There is much rivalry for this honor. Tom Mosler, who has been to Washington more than any other Osage interpreter, wants to make another trip, while both Harry Koh-pey and Billie Pryor, younger men of the tribe, who have never been to the national capital, would like to be designated. Koh-pey is the only full blood Osage graduate of Carlisle, while Pryor is a full blood Haskell institute graduate. Both are now in the government service as interpreters.

Black Dog is perhaps the most conspicuous of Osage Indians. Among the whites he is regarded as the statesman of the tribe, and he was selected by the Indian department as the Indian member of the allotting

commission. He was a confederate soldier, participating in many battles, but no soldier of the southern armies was ever more thoroughly reconstructed.

The mixed bloods of the tribe and many of the squaw men are favoring the removal of restrictions. Especially the squaw men in selecting the land allotments for their families took a great portion of it in the oil and gas fields, expecting to get the restrictions removed and then benefit by owning these valuable mineral tracts.

In addition to the Osages, the Cheyennes will also send a strong delegation to Washington in the near future, with Paul Boynton, a Carlisle graduate, as interpreter. Chief Washee of the Cheyennes is selecting a number of prominent tribesmen to accompany him on the trip, together with several Arapahoe chiefs.

They are after a division of tribal funds. Boynton is one of the best known among the younger Cheyennes. Recently he secured a certificate of competency from the Indian department at Washington and sold a valuable tract of land, adjoining the city of El Reno, to Lieut. Gov. George W. Bellamy for \$60,000.

**GRIP GERMS FROM MARS.**

Iowa Weather Prophet Puts the Blame on Sister Planet.

Waterloo, Ia.—Interpolated in his predictions for February, John C. Busby, a weather prophet of independence, advances a theory to explain the presence of the grip germ. The native habitat of the germ, he says, is the planet Mars, which is now very near to the earth, and the germs have leaped through the intervening space. He believes that Mars is inhabited by human beings like ourselves, who, he would infer, have suffered recurrent attacks of the prevailing malady for years.

Mr. Busby draws a gloomy picture for February, but one which will cheer the iceman's heart. He says the position of the planets augurs much cold and stormy weather.

Mr. Busby is the man to whom was imputed the movement last summer to form a weather prophets' organization to regulate the price of sunny days.

## TRADES WIFE'S HAT FOR FISH

Herr Goritz Now Regrets Rash Wager and Seeks Disposal of Herring.

New York.—Otto Goritz, who sings in the Metropolitan opera company and who is entirely unwilling to use his voice in competition with trained hawkers crying "Fish! Fish!" is wondering what he is going to do with 4,000 herring which are piled up in his apartments. He got them in exchange for a new spring hat, feminine make, but entirely dissatisfied with the deal.

Herr Goritz and Hugo V. Lange, an importer, were dining together, and the latter was struck by the style of the singer's wife's head creation. He asked if he could buy it, and on being told of course not, said:

"Well, I'll give you 80 feet of herring for it."

"All right," said Herr Goritz, and he promptly forgot all about the bargain.

Long before either Herr Goritz or his wife had thought of asking to greet the morning sun they were rudely awakened by a rapping at the door, which on being answered revealed the presence of a truckman. After stating that he had something to deliver, he backed a wagon up to the door and began to shovel out dried 4,000 herring, which, he said, if laid tail to tail, would extend a distance of far more than 80 feet. The singer did not see the joke.

**Legal Ban on Broken Dishes.**

Guthrie, Okla.—The lower house has passed a sweeping measure regulating hotels. The measure provides that every hotel shall be fitted with a prescribed fire escape. Nine-foot sheets on the beds are specified, and in regard to the dining-room the measure reads: "No cup, dish or receptacle for food shall have cracks visible to the naked eye."

## STATUE OF SHERIDAN

Copyright by Waldon Fawcett.

The above photograph is a model of the monument which is to be erected to the famous cavalry leader in Washington. The statue depicts the general in the act of reining in his horse and returning a salute of his men. Unlike any of the other statues in the national capital this one will not be placed upon a high pedestal, but will stand within three feet of the ground.

## A VERY PATRIOTIC FAMILY.

Kansas City, Mo.—"It is showing a great deal of patriotism when all of the male members of a family go into the government service," remarked the recruiting sergeant at the naval station. "Yesterday afternoon a man came in here whose name is Benjamin Harrison Adams, from near Joplin, Mo."

"He said that he wanted to join the navy, as all of his brothers were in the army or navy. Three of the Adams boys have seen naval service and two of them are in the army. The father

was an army man, too. It's very seldom that you see all of the family in the service, isn't it?"

Adams is the youngest of the five boys and has just passed his majority.

## BUYS OLD CHURCH BUILDING.

Former Sheriff Bids in Edifice to Save It from Desecration.

Clayton, N. J.—To save a church from being converted into a pool and billiard room, ex-Sheriff Wilson T. Jones bought the Franklinville Presbyterian church. Mr. Jones bought the structure to save it from desecration because his mother worshiped there.

At the suggestion of the "B. G. T.," a secret society of 13 of the prettiest girls in the village, Mr. Jones will take out the old-fashioned benches, remodel and refurnish the interior and give the building for the use of the town for fairs, suppers and other such occasions.

The B. G. T. society will have charge of the building and hold its regular meetings there. The church was built in 1850, the land being purchased from Lawrence Cake, an old hotelkeeper of Franklinville.

Although the congregation was always small, the church flourished until the First Presbyterian church of Clayton was built, which took many of its members and has finally received them all.

## MISER HAD ODD SCHEME.

Bought Farms Cheap by Pretending to Be Foolish.

Cumberland, Mo.—Amos McElfish, a miserly hermit, who died at Springfield, W. Va., a short time ago, at the age of 90, left an estate valued at \$250,000, consisting of timber lands and farms in various counties of Maryland and West Virginia.

The deceased had a most novel scheme to purchase land at a low price. He would visit public sales dressed in a manner that would have shamed the average hobo, and, while bidding would act like a lunatic, making ridiculous offers, so that the auctioneer would knock the property down to him at a cheap figure in order to get rid of him, never thinking that such a seedy looking individual would have the money with which to make good his bid.

But the moment the property was declared his McElfish would produce the money and demand his right. He never married, and his heirs are scattered in various parts of the country.

### Mrs. Barry Lectures at Presbyterian Church.

As advertised for many days in the columns of the News, Mrs. Barry appeared at the First Presbyterian church Thursday evening. The lecture was given under the auspices of XX Century Club for the benefit of the Public Library. Mrs. Barry's subject was "The Drama as an Art." She began with the origin of the drama, explained its development and its technique, classifying the various forms and emphasizing the art in dramatic literature. She held her audience spell bound for more than an hour, and every body departed feeling they had indeed attended a literary feast.

Mrs. Barry will give a reading of "As You Like It" this evening and she should be greeted with a crowded house.

### GOVERNMENT TO PAY INDIANS Chickasha-Chicotaw Per Capita Payments Will Begin This Spring

Muskogee, Okla., March 5.—Another Chickasaw-Chicotaw per capita payment will be made by the government to the members of those tribes some time after May 1, and rolls are now being prepared in the Indian offices here.

In all, \$500,000 will be paid. About 25,000 Indians will be paid a per capita of \$20. The money is that derived from the sale of townships in the Choctaw and Chickasaw nations. Payment will be made by a special agent who will probably travel from town to town.

The big million dollar payment made a year ago was under the supervision of the United States Indian agent. It is estimated that it will require several months to get the roll in shape.

## 200 DEMOCRATS ASSEMBLE

SUCH INTEREST COULDN'T HELP BUT IMPRESS ONE THAT THE PEOPLE MEAN BUSINESS

### A LIBERAL PRIMARY

Every White Man and Indian in Ada Invited to Participate in the Primary.

Two hundred, or thereabout, democrats assembled at the court house last Thursday night and discussed the proposition whether there should be held a democratic primary for the purpose of selecting a solid democratic ticket before the city election to occur on Saturday, March, the 28th.

Lem Little, the popular grocery merchant, who is the vice president of the city democratic club, presided over the meeting. Curtis King, the accommodating secretary of the club, was at his post as he ever was on any proposition of interest to his party.

The Hon. Tom Holt, who has been very active in promoting Ada's status up to the city of the first class, officially stated to the meeting that the governor had issued an election proclamation calling for an election in Ada on the 28th of this month. Then for the information of all, he read a copy of the late bill under the authority of which the election has been called.

The chairman called on Ada's big "nester" democrat, Judge Furman, to address the meeting and he responded, the principle part of his address including a strong advocacy of party organization, and that the club should call a city democratic primary.

There were calls for the Hon. J. W. Bolen when Mr. Furman had concluded. Judge Bolen spoke strongly against the idea of a democratic primary, offering in argument to sustain his position: 1st, the fact of the very limited time preceding the general city election on the 28th inst. to hold a primary; 2nd, that under the law, the primary could not be made legal and that a primary not safe guarded might defeat the real will of the citizens most vitally interested. Mr. Bolen contended that many leading republicans of the city had declared that they recognized that they were vastly in the minority in Ada and that should the democrats not call a primary, they would warrant that no republican would contest for a single office, but as loyal citizens of Ada, they invited the democrats to withhold a primary election, that they might participate in the regular city election helping to elect the democrats whom they thought would come more nearly conserving the best interests of the city.

When Judge Bolen had finished, the Hon. Tom D. McKeown, the pathfinder of peace among the members of the party, was called out and responding; he stated that it occurred to him that a compromise be reached as between the conflicting ideas of Judges Furman and Bolen. Said Tom: Why not have a primary in which only democrats should be candidates, but it being understood that all citizens, irrespective of politics, be invited to vote. This idea seemed to meet with general favor among the 200 democrats present. Judge Furman made a motion that there should be held a primary on Tuesday the 17th day of March. Otis Weaver moved to amend the motion that a primary should be held by adding, that it is the direction of the democratic club that the pledge only should appear at the head of the ticket, "I agree to support the nominees of this primary," and that all white and Indian citizens residing in Ada be invited to participate. This amendment was accepted and the motion as amended unanimously carried.

Col. Geo. Thompson moved that the chair appoint an executive committee composed of one member from each ward and that the four members appointed select a fifth member from the city at large. The chair appointed: 1st ward, W. H. Ebey; 2nd ward, A. M. Croxton; 3rd ward, George West; 4th ward, Col. Geo. Thompson. The meeting adjourned in high good humor.

At the moment the news goes to press, Geo. A. Harrison drops by and directs that the announcement column show that he is a candidate for mayor subject to the primary next Tuesday week.

### SEEK GOOD ROADS LEGISLATION.

Chickasha-Chicotaw Per Capita Payment Permitting State to Condemn Allotted Land.

Guthrie, Ok., March 5.—Without action on the part of congress permitting the state to condemn allotted land and the land of minors for public highway purposes, it is held little can be done with the good roads problem on the eastern side of the state. A memorial to congress asking for such legislation is pending here. Members of the Oklahoma Good Roads Association, who have been following the situation, believe the legislature will make very little change in the present state general road law, but that two other measures will be put through, one authorizing the working of the state convicts on the public highways and another for the issue of bonds by counties for good roads purposes.

"Members of the legislature," said Col. Sidney Suggs of Ardmore, state president for the national good roads movement, "are seeking some way to work the roads, while the association, as far as the eastern side of the state is concerned, is looking for a road to work. Should we reach the purchase stage we will find that a fifty foot road will mean six acres to the mile, at an average cost of \$15 per acre."

### XX Century Club Gives a Tea.

Thursday afternoon the ladies of the XX Century Club gave an informal tea at Mrs. Furman's to allow the ladies of Ada to meet Mrs. Maggie E. Barry of Sherman, who had been engaged to deliver a series of lectures for the benefit of the Public Library. With Mrs. Barry in the receiving line were the officers of the club and the hostess, while Mrs. Browall poured tea in the dining room assisted by Mrs. Thornton and Mrs. Beard. Other members of the club assisted throughout the house in entertaining the guests. About 60 ladies called from 3 to 4 p. m. and as they departed many expressions were heard of the charming personality of the guest of honor and of a pleasant afternoon with club women of Ada.

# MEETING OF MEANING.

## Great Interest, General Unanimous Concurrence, a Lowering of the Party's Bars Principal Features.

At the meeting of the city democratic club 200 strong last evening an unusual and gratifying interest was shown in the municipal affairs of this city. It appears that the people have come to realize that Ada has now reached that size and stage when all the affairs of the city which naturally influence its general growth and advancement must receive that treatment which will award the best possible results. The large attendance at the meeting last night composed almost wholly of honest laboring, business and professional interests within the democratic party of the city most certainly foreboded that it is now emphatically recognized that the executive administration of the business of the city must be constructed on a broader basis than the mere collection of fine and costs. The most remarkable thing about this democratic meeting composed of intense democratic partisans appeared when it was discerned that even their party zeal in local affairs would not permit them to ostracize any white or Indian citizen from a participation in the selection of the officers of the city at this extremely important time when it is the paramount ambition of every true citizen of Ada, regardless of politics, to see the city's welfare conserved.

When it was unanimously agreed last night by a rising vote that the primary test be simply an agreement printed at the head of the ticket that the voter should support the nominees and that all white and Indian citizens who were qualified voters in the city, be invited to participate in the selection of a ticket, right then, it was a tacit agreement, no more or no less, that there should be a "white man's primary" before which the list of candidates should be composed of democrats.

# STREETS SIDEWALKLESS.

The News has for a long time desisted from mentioning it, for it is a serious reflection on a city of Ada's reputation abroad, but "it is true: 't is true 't is pity; and pity 't is 't is true." Ada, it is stated on good authority has less side walks than any other town one-half the size of her in the new state. This, notwithstanding the splendid churches, nice homes, inviting adaptability of the streets for side walk building and the cheapest and best side walk construction material in the United States. Think of the quality and quantity of our lime stone rock the cheap high grade home manufactured brick, and our own cement factory with cement at cost offered, then think, oh, well think, just think of having had a mayor whose bump of official comprehension appears to dwell alone on so much per one drunk fine and fees, the mayor's own fee it is alleged, generally exceeding the fine which goes to the city.

Remember the date of March the 17th, next Tuesday week. The most important occurrence within Ada's own initiative, ever performed will be that of the city primary next Tuesday week. Be careful how you vote; vote for the good of Ada, the city of bright opportunity.

# MEETING OF MEANING.

## Great Interest, General Unanimous Concurrence, a Lowering of the Party's Bars Principal Features.

At the meeting of the city democratic club 200 strong last evening an unusual and gratifying interest was shown in the municipal affairs of this city. It appears that the people have come to realize that Ada has now reached that size and stage when all the affairs of the city which naturally influence its general growth and advancement must receive that treatment which will award the best possible results. The large attendance at the meeting last night composed almost wholly of honest laboring, business and professional interests within the democratic party of the city most certainly foreboded that it is now emphatically recognized that the executive administration of the business of the city must be constructed on a broader basis than the mere collection of fine and costs. The most remarkable thing about this democratic meeting composed of intense democratic partisans appeared when it was discerned that even their party zeal in local affairs would not permit them to ostracize any white or Indian citizen from a participation in the selection of the officers of the city at this extremely important time when it is the paramount ambition of every true citizen of Ada, regardless of politics, to see the city's welfare conserved.

When it was unanimously agreed last night by a rising vote that the primary test be simply an agreement printed at the head of the ticket that the voter should support the nominees and that all white and Indian citizens who were qualified voters in the city, be invited to participate in the selection of a ticket, right then, it was a tacit agreement, no more or no less, that there should be a "white man's primary" before which the list of candidates should be composed of democrats.

# STREETS SIDEWALKLESS.

The News has for a long time desisted from mentioning it, for it is a serious reflection on a city of Ada's reputation abroad, but "it is true: 't is true 't is pity; and pity 't is 't is true." Ada, it is stated on good authority has less side walks than any other town one-half the size of her in the new state. This, notwithstanding the splendid churches, nice homes, inviting adaptability of the streets for side walk building and the cheapest and best side walk construction material in the United States. Think of the quality and quantity of our lime stone rock the cheap high grade home manufactured brick, and our own cement factory with cement at cost offered, then think, oh, well think, just think of having had a mayor whose bump of official comprehension appears to dwell alone on so much per one drunk fine and fees, the mayor's own fee it is alleged, generally exceeding the fine which goes to the city.

Remember the date of March the 17th, next Tuesday week. The most important occurrence within Ada's own initiative, ever performed will be that of the city primary next Tuesday week. Be careful how you vote; vote for the good of Ada, the city of bright opportunity.

# Weak Kidneys

Weak Kidneys surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, and the Lungs, are in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money, and of health.

If your back aches or is weak, if the urine is scanty, or if it is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tea or Liquid—and see what it can and will do for you. Druggists recommend and sell.

There appears to be a general movement in the city today in which business and laboring citizens are alike interested and participating. This movement is the frank and open discussion among the true and tried men of various honest occupations as to the most available man for mayor. With these citizens who are interested in getting out a candidate for mayor, the available man is not so much the man with the greatest popularity, but the man who has an undisputed reputation for unswerving integrity and sound, progressive business judgment. The information comes to the News that such men as W. H. Ebey, Tom D. McKeown, E. W. Hardin, J. B. Jiles, Henry Collins, Shad Chapman, W. L. Reed, Geo. Harrison, W. W. Sledge, and others are being mentioned as good mayoralty material. ### THE ROFF EAGLE.

Makes Some Observations Below About Affairs in Ada Comparisons Drawn.

There may be a city in the broad state of Oklahoma that can boast of a higher type of citizens than Ada, but we arise to remark that we once lived in Missouri.

The springs fights opened last Monday, and two events were pulled off that afternoon. From what we can learn honors were about even in both cases.

The police court has been doing a rushing business of late as twenty violations have been docketed during the past week, and in the cases that have been disposed of but one resulted in an acquittal.

The above editorial an dtwo news items clippe dtrom the same issue of the Ada Democrat. The same week this was printed Mr. Carlton Weaver, who represented this district in the constitutional convention and who is generally known to be a citizen of a very high type and a christian gentleman, was attacked in a drinking joint in Ada, knocked down by a ruffian, and because he defended himself was dragged up before the mayor and fined. Thus showing that the tough element is in the majority in Ada, otherwise they would not elect officers who sympathize with that element.

If the editor of the Democrat will come down to Roff we will show him a town which has not had over twenty violations docketed in a year, and only two since statehood. The citizens of Roff may not be of a higher type than those of Ada, but they have undoubtedly reached a higher plane of civilization.—Roff Eagle.

### EIGHT HOURS' WORK FOR WOMEN

Williams of Lawton Would Regulate Time by Law.

Guthrie, Ok., March 5.—Representative J. Roy Williams of Lawton has introduced a measure providing a uniform eight-hour employment law for females and prescribing fines of from \$10 to \$25 for violations by employers. The law covers women in offices, mercantile and mechanical establishments, telephone exchanges, hotels and restaurants. Two measures have been introduced by Representative W. A. Durant to prevent corporations owning interests in each other. No bank may be designated a depository for state funds a majority of whose stock is owned by another corporation, either foreign or domestic, and no bank 25 per cent of whose stock is thus controlled will be entitled to the benefits of the state guaranty deposit law.

Under the provisions of Durant's second bill, the ownership of the capital stock of any corporation doing business in the state by an corporation is forbidden. All corporations must keep offices in the state and file semi-annual statements with the corporation commission.

When a man writes as follows don't you think he means it? Mr. S. G. Williams, Powderly, Texas, says, "I have suffered for years with Kidney and Bladder trouble, using every preparation I came across and taking many prescriptions all without relief until my attention was called to Pineules. After 30 days' trial (\$1.00). I am feeling fine. Money refunded if not satisfied. Sold by Gwin, Mays & Co.

Bert Barber of Elton, Wis., says: "I have only taken four doses of your Kidney and Bladder Pills and they have done for me more than any other medicine has ever done. Mr. Barber refers to DeWitt's Kidney and Bladder Pills. They are sold by Crescent Drug Store, F. Z. Holley, Prop.

## FILIPINO DELEGATE TO CONGRESS

Copyright by Waldon Favre.

Pablo Ocampo De Leon, the delegate selected by the Filipino assembly, is like his colleague, a lawyer by profession, a native of Manila and a member of a well-to-do family. He was also a Filipino patriot, was imprisoned by the Spaniards and afterwards exiled by the Americans, but after two years was allowed to return to Manila. He gave up politics for a time and devoted himself to his law practice, but he became director of La Patria and drifted back into public affairs and was elected to the assembly by the Nacionalistas. Mr. Ocampo is practically a pure-blooded Filipino. The majority of the assembly were anxious to have their delegate a true representative of their race. Mr. Ocampo was further favored both by his radically patriotic record and by his present conservatism. The assembly leaders considered it good policy to send a moderate nationalist to Washington. These two delegates will endeavor to obtain from congress the reduction of the import duty on Filipino sugar and tobacco. They say the cattle plague has killed off 90 per cent. of the working animals, and that the Filipinos are in a worse position than they have been for 30 years. They are also interested in the Japanese question, being, like all the Japocated Filipinos, suspicious of the Japanese.

## TO SAVE THE BUFFALO.

### APPEAL ISSUED FOR PRESERVATION OF AMERICAN BEAST.

#### Plan Proposed is to Have Herds Established on Suitable Ranges Under Government Auspices.

Meriden, N. H.—The American Bison society, with headquarters in this city, has issued an appeal for the perpetuation of the American buffalo. To best preserve the animal the society has planned a systematic campaign of ambitious proportions. The president of the United States is the honorary president of the organization, and the honorary vice-president is his excellency Earl Grey, governor general of Canada. The secretary is Ernest Harold Baynes, whose post office address is Sunset Ridge, Meriden, N. H.

The following is an extract from an address issued by the society:

"The American bison or buffalo, our grandest native animal, is in grave danger of becoming extinct, and it is the duty of the people of to-day to preserve for future generations this picturesque wild creature, which has played so conspicuous a part in the history of America. We owe it to our descendants that all possible effort shall now be made looking to the perpetual increase and preservation of this noble animal, whose passing must otherwise soon be a matter of universal and lasting regret.

"It is conceded, particularly by all authorities, that, owing to the uncertainties of human life and the changes in fortune and in policy among private individuals and private corporations, the buffalo cannot be perpetuated for centuries, and preserved from ultimate extinction, save under government auspices. At present nearly all the buffaloes in the United States are in private hands, and with few

exceptions are for sale to anyone offering a reasonable price. Many are sold every year, some for propagating purposes, and others to the butcher and the taxidermist. Moreover, most of them are in a few comparatively large herds, and should contagious disease at any time strike one of these, so great a percentage of the now remaining buffaloes might be wiped out at one blow as to make the perpetuation of the remainder practically an impossibility.

"In the belief that Americans generally will be found in sympathy with a carefully planned movement to save what might well be termed their national animal, and in order that all who desire may take part in the work of preservation, there was recently organized in New York city the American Bison society, which in accordance with its constitution has for its object 'the permanent preservation and increase of the American bison.'

"This society will seek to have established in widely separated localities, under government auspices, several herds of buffalo, on suitable ranges (preferably government land), such ranges to be chosen from a large number that have been recommended by competent persons. These herds, under proper management, should increase until the race was no longer in danger of extinction.

"With this end in view, the American Bison society has now begun an active campaign. A bill calling for national aid in the establishing of several buffalo herds is already under consideration. In the meantime the society purposes to make a determined effort to organize the interest of the public in the fate of the American buffalo, and presently bring it to bear in such a manner that it will result in the governments of both the United States and Canada taking active measures to insure that animal's preservation and increase.

"The officers of the society are prepared to do the work incidental to this campaign, but, in order that this work may be carried on promptly and vigorously, they must have the support of those whom they believe to be in sympathy with them. This support can best be given by joining the American Bison society and by urging others to join it. The work to be done requires money, and for this the society depends entirely upon membership fees and dues and occasional private subscriptions.

"The extinction of the buffalo would be an irreparable loss to American fauna; more than that, it would be a disgrace to our country. The passing of any great and noble animal is a calamity which all thoughtful persons should seek to avert. But the buffalo has a special claim upon us, inasmuch as the great service he rendered the country in early times were repaid with indescribable brutality and persecution. By a series of cold blooded massacres never equaled by any other nation calling itself civilized, a great race of animals numbering countless millions was reduced to numbers so pitifully small that for a time it was regarded as practically extinct. The least we can do now to partly atone for this ruthless slaughter is to join in measures to prevent what must otherwise be the final result of perhaps the greatest wrong ever inflicted by man upon a valuable wild animal."

### BUYS OLD CHURCH BUILDING.

#### Former Sheriff Bids in Edifice to Save it from Desecration.

Clayton, N. J.—To save a church from being converted into a pool and billiard room, ex-Sheriff Wilson T. Jones bought the Franklinville Presbyterian church. Mr. Jones bought the structure to save it from desecration because his mother worshiped there.

At the suggestion of the "B. G. T." a secret society of 13 of the prettiest girls in the village, Mr. Jones will take out the old-fashioned benches, remodel and refurnish the interior and give the building for the use of the town for fairs, suppers and other such occasions.

The B. G. T. society will have charge of the building and hold its regular meetings there. The church was built in 1856, the land being purchased from Lawrence Cake, an old hotelkeeper of Franklinville.

Although the congregation was always small, the church flourished until the First Presbyterian church of Clayton was built, which took many of its members and has finally received them all.

### MISER HAD ODD SCHEME.

#### Bought Farms Cheap by Pretending to Be Foolish.

Cumberland, Mo.—Amos McElfish, a miserly hermit, who died at Springfield, W. Va., a short time ago, at the age of 90, left an estate valued at \$350,000, consisting of timber lands and farms in various counties of Maryland and West Virginia.

The deceased had a most novel scheme to purchase land at a low price. He would visit public sales dressed in a manner that would have amazed the average hobo, and, while bidding would act like a lunatic, making ridiculous offers, so that the auctioneer would knock the property down to him at a cheap figure in order to get rid of him, never thinking that such a sordid looking individual would have the money with which to make good his bid.

But the moment the property was declared his McElfish would produce the money and demand his right. He never married, and his heirs are scattered in various parts of the country.

The above photograph is a model of the monument which is to be erected to the famous cavalry leader in Washington. The statue depicts the general in the act of reining in his horse and returning a salute of his men. Unlike any of the other statues in the national capital this one will not be placed upon a high pedestal, but will stand within three feet of the ground.

### A VERY PATRIOTIC FAMILY.

Kansas City, Mo.—"It is showing a great deal of patriotism when all of the male members of a family go into the government service," remarked the recruiting sergeant at the naval station. "Yesterday afternoon a man came in here whose name is Benjamin Harrison Adams, from near Joplin, Mo."

"He said that he wanted to join the navy, as all of his brothers were in the army or navy. Three of the Adams boys have seen naval service and two of them are in the army. The father

was an army man, too. It's very seldom that you see all of the family in the service, isn't it?"

Adams is the youngest of the five boys and has just passed his majority.

It was surprising.

## SAVIOR OF OUR NAVY

### INVENTOR HAS NOVEL DEVICE TO PROTECT BATTLESHIPS.

Proposes Chain Armor of Invisible Links to Ward Off Attacks of Hostile Torpedoes — Wants \$75,000 for His Secret.

Washington.—William Wilson of Paterson, N. J., appeared at the capitol the other day in the guise of the savior of the United States navy.

He has walked through the dark valleys that lie at the bottom of the sea. He has stood, hand in hand with a mermaid, on the crests of submerged mountains. He has communed with the shark and the scuttlesh. He has learned from the swordfish how the waters of the mighty ocean may be hacked to pieces. The secrets of the seas are his and the mysteries of the waters are like A B C to him.

Therefore, William Wilson has thought it to be a grievous error to let this knowledge go for naught. William Wilson did not let it go for naught. He has invented a device that will mean millions, possibly billions, of dollars to the government's capacious pocket.

William Wilson has an invention that, at a nominal cost, will so fortify the ships of the American navy as to make the swiftest torpedoes of other navies mere minnows nibbling in vain at the sides of Uncle Sam's men-of-war. The strongest subsurface projectile will strike the ships and fall vain and useless, to the bottom of the ocean when once the ships have been provided with the new invention.

William Wilson's contrivance is in the nature of an endless chain. It consists of links visible and invisible. It is to be hung around the hulks of vessels, and, in time of battle, it is to be dropped into the sea, completely surrounding the part of the ship that is under water. Torpedoes will get mixed up in this chain-armor effect, kick against the links in useless energy, signal the surface that there's nothing doing in the destruction line, and then drop out of existence forever.

But William Wilson cannot give up his knowledge for nothing. He carries in every pocket copies of a bill he wants introduced providing that to William Wilson \$75,000 shall be given and that, in return for this paltry sum, William Wilson shall drop in on navy department officials and teach them how the ships of the navy shall be made impregnable.

William Wilson has a sublime confidence in his invention. He has pictures of it in sections, and as a whole. He has a water color painting of a battleship safeguarded by the chain-like fort.

He is a stout man, of medium height, with whiskers that look like the beard of Neptune. On his face there is a crimson hue that comes from braving the dangers of the deep, conversing with mermaids on the crests of submerged mountains and communing with the shark. He smiles but rarely. He is tremendously in earnest.

"The invention is entirely reliable," he explained. "I have tested it on a rowboat in Chesapeake bay. It will not injure a ship's speed, and it is absolutely impossible for a torpedo to make any impression on it. I am giving it away, when I say the government can have it for \$75,000."

William Wilson, however, has found no enthusiasm at the capitol regarding his invention. No member of congress cares to introduce the bill he carries in his pockets. One member told him he had been approached by John M. Jones of New York, who wanted \$50,000 to build an airship, and, having refused John Jones' request, he would have to refuse William Wilson's.

As William Wilson retired from the abode of the lawmakers, declaring he would return to take up again the fight for recognition, an irreverent employe of the capitol sang a few bars from "Swim Out, O'Grady."

But William Wilson regarded him with an expression of profound pity.

### Wear Gems Outside Furs.

New York.—A new fashion set by Mrs. Stuyvesant Fish interested the tea drinkers in the Plaza the other afternoon.

Mrs. Fish arrived at the Fifty-eighth street entrance of the Plaza when the rooms were thronged. She wore a long coat of broadtail fastened by a diamond ornament of great size. Except for these gems there was no dash of color to relieve the costume.

In a flash this innovation had sunk deep in the hearts of other women, and the way in which jewels were quickly shifted after Mrs. Fish had been seen, seemed to indicate that in future gems will not bide their light under fur coats.

Benito Legarda, who has been selected by the Filipino commission, composed of four Americans and three Filipinos, as one of the delegates to represent the Philippine islands in the United States congress, was formerly one of Aguinaldo's most trusted lieutenants. He was for a time vice-president and treasurer of the Malolos congress, but he soon realized the hopelessness of armed opposition to American sovereignty, and so resigned to become leader of the Federal party, whose policy was submission. In recognition of his services he was selected as one of the three Filipinos on the Philippine commission when civil government was organized in 1901, a position which he has held ever since. Like the rest of his party he is in favor of independence, but only when the United States is satisfied that the Filipinos are ready for it. He is a man of middle stature, with black hair and mustache slightly touched with gray. He has the refinement that is born in a long line of aristocratic ancestors and the culture of a man who has traveled extensively. He is 54 years of age, was born in Manila and has been admitted to the bar, although he has long since given up practice to attend to his business interests. He is very wealthy.

## WILL INVADE CAPITAL

### OSAGE CHIEFS WILL PLEAD FOR THE PAPOOSE.

#### Going to Washington to Ask for Land for Recent Arrivals in Tribe—Want Restrictions on Sale of Property Removed.

Guthrie, Okla.—Washington is soon to be visited by one of the most imposing and prominent Indian delegations in recent years.

It will be composed entirely of Osage chiefs and official interpreters, and while they will protest when there against the removal of restrictions on the sale of Indian lands their principal mission is one which to the tribe itself is of far greater importance—the presentation of a request that all Indian babies born during the past half year be permitted to share in the land allotments.

The stork has been unusually active among the Osages during the past six months, and the full blood element is anxious that each child be given at least one-quarter section of land.

The delegation of chiefs will be composed of ten members in addition to the interpreters. Black Dog, the Indian member of the allotting commission; Brave, the assistant chief of the tribe; Bacon Rind, and O-lah-wah-wah, also ex-chiefs, will be on the delegation, as they are among the most influential with Washington officials.

The full blood council will elect the ten and name the interpreter who will accompany them. There is much rivalry for this honor. Tom Mosler, who has been to Washington more than any other Osage interpreter, wants to make another trip, while both Harry Koh-pey and Billie Pryor, younger men of the tribe, who have never been to the national capital, would like to be designated. Koh-pey is the only full blood Osage graduate of Carlisle, while Pryor is a full blood Haskell institute graduate. Both are now in the government service as interpreters.

Black Dog is perhaps the most conspicuous of Osage Indians. Among the whites he is regarded as the statesman of the tribe, and he was selected by the Indian department as the Indian member of the allotting

commission. He was a confederate soldier, participating in many battles, but no soldier of the southern armies was ever more thoroughly reconstructed.

The mixed bloods of the tribe and many of the squaw men are favoring the removal of restrictions. Especially the squaw men in selecting the land allotments for their families took a great portion of it in the oil and gas fields, expecting to get the restrictions removed and then benefit by owning these valuable mineral tracts.

In addition to the Osages, the Cheyennes will also send a strong delegation to Washington in the near future, with Paul Boynton, a Carlisle graduate, as interpreter. Chief Washoe of the Cheyennes is selecting a number of prominent tribesmen to accompany him on the trip, together with several Arapahoe chiefs.

They are after a division of funds. Boynton is one of the best known among the younger Cheyennes. Recently he secured a certificate of competency from the Indian department at Washington and sold a valuable tract of land, adjoining the city of El Reno, to Lieut. Gov. George W. Bellamy for \$60,000.

### GRIP GERMS FROM MARS.

#### Iowa Weather Prophet Puts the Blame on Sister Planet.

Waterloo, Ia.—Interpolated in his predictions for February, John C. Busby, a weather prophet of Independence, advances a theory to explain the presence of the grip germ. The native habitat of the germ, he says, is the planet Mars, which is now very near to the earth, and the germs have leaped through the intervening space. He believes that Mars is inhabited by human beings like ourselves, who, he would infer, have suffered recurrent attacks of the prevailing malady for years.

Mr. Busby draws a gloomy picture for February, but one which will cheer the ice-man's heart. He says the position of the planets augurs much cold and stormy weather.

Mr. Busby is the man to whom was imputed the movement last summer to form a weather prophets' organization to regulate the price of sunny days.

### Herr Goritz Now Regrets Rash Wager and Seeks Disposal of Herring.

New York.—Otto Goritz, who sings in the Metropolitan opera company and who is entirely unwilling to use his voice in competition with trained hawkers crying "Fish! Fish!" is wondering what he is going to do with 4,000 herring which are piled up in his apartments. He got them in exchange for a new spring hat, feminine make, but entirely dissatisfied with the deal.

Herr Goritz and Hugo V. Lange, an importer, were dining together, and the latter was struck by the style of the singer's wife's head creation. He asked if he could buy it, and on being told of course not, said:

"Well, I'll give you 50 feet of her ring for it."

"All right," said Herr Goritz, and he promptly forgot all about the bargain.

Legal Ban on Broken Dishes. Guthrie, Okla.—The lower house has passed a sweeping measure regulating hotels. The measure provides that every hotel shall be fitted with a prescribed fire escape. It will be composed entirely of Osage chiefs and official interpreters, and while they will protest when there against the removal of restrictions on the sale of Indian lands their principal mission is one which to the tribe itself is of far greater importance—the presentation of a request that all Indian babies born during the past half year be permitted to share in the land allotments.

The stork has been unusually active among the Osages during the past six months, and the full blood element is anxious that each child be given at least one-quarter section of land.

The delegation of chiefs will be composed of ten members in addition to the interpreters. Black Dog, the Indian member of the allotting commission; Brave, the assistant chief of the tribe; Bacon Rind, and O-lo-han-walla, also ex-chiefs, will be on the delegation, as they are among the most influential with Washington officials.

The full blood council will elect the ten and name the interpreter who will accompany them. There is much rivalry for this honor. Tom Mosler, who has been to Washington more than any other Osage interpreter, wants to make another trip, while both Harry Kob-poy and Billie Pryor, younger men of the tribe, who have never been to the national capital, would like to be designated. Kob-poy is the only full blood Osage graduate of Carlisle, while Pryor is a full blood Haskell institute graduate. Both are now in the government service as interpreters.

Black Dog is perhaps the most conspicuous of Osage Indians. Among the whites he is regarded as the statesman of the tribe, and he was selected by the Indian department as the Indian member of the allotting

commission. He was a confederate soldier, participating in many battles, but no soldier of the southern armies was ever more thoroughly reconstructed.

The mixed bloods of the tribe and many of the squaw men are favoring the removal of restrictions. Especially the squaw men in selecting the land allotments for their families took a great portion of it in the oil and gas fields, expecting to get the restrictions removed and then benefit by owning these valuable mineral tracts.

In addition to the Osages, the Cheyennes will also send a strong delegation to Washington in the near future, with Paul Boynton, a Carlisle graduate, as interpreter. Chief Washee of the Cheyennes is selecting a number of prominent tribesmen to accompany him on the trip, together with several Arapahoe chiefs.

They are after a division of tribal funds. Boynton is one of the best known among the younger Cheyennes. Recently he secured a certificate of competency from the Indian department at Washington and sold a valuable tract of land, adjoining the city of El Reno, to Lieut. Gov. George W. Bellamy for \$60,000.

### GRIP GERMS FROM MARS.

Iowa Weather Prophet Puts the Blame on Sister Planet.

Waterloo, Ia.—Interpolated in his predictions for February, John C. Busby, a weather prophet of Independence, advances a theory to explain the presence of the grip germ. The native habitat of the germ, he says, is the planet Mars, which is now very near to the earth, and the germs have leaped through the intervening space. He believes that Mars is inhabited by human beings like ourselves, who, he would infer, have suffered recurrent attacks of the prevailing malady for years.

Mr. Busby draws a gloomy picture for February, but one which will cheer the iceman's heart. He says the position of the planets augurs much cold and stormy weather.

Mr. Busby is the man to whom was imputed the movement last summer to form a weather prophets' organization to regulate the price of sunny days.

## TRADES WIFE'S HAT FOR FISH

Herr Goritz Now Regrets Rash Wager and Seeks Disposal of Herring.

New York.—Otto Goritz, who sings in the Metropolitan opera company and who is entirely unwilling to use his voice in competition with trained hawkers crying "Fish! Fish!" is wondering what he is going to do with 4,000 herring which are piled up in his apartments. He got them in exchange for a new spring hat, feminine make, but entirely dissatisfied with the deal.

Herr Goritz and Hugo V. Lange, an importer, were dining together, and the latter was struck by the style of the singer's wife's head creation. He asked if he could buy it, and on being told of course not, said:

"Well, I'll give you 80 feet of herring for it."

"All right," said Herr Goritz, and he promptly forgot all about the bargain.

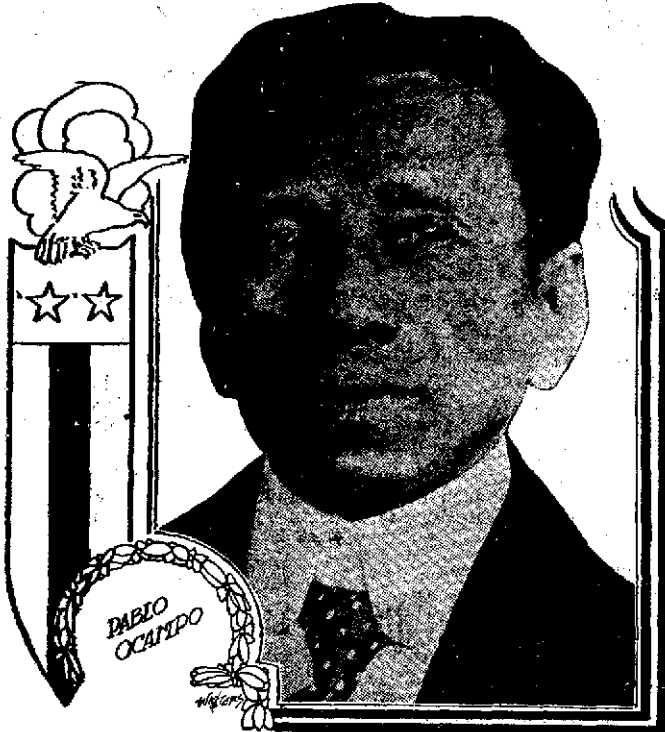

Long before either Herr Goritz or his wife had thought of giving to greet the morning sun they were rudely awakened by a rapping at the door, which on being answered revealed the presence of a truckman. After stating that he had something to deliver, he backed a wagon up to the door and began to shovel out dried 4,000 herring, which, he said, if laid tail to tail, would extend a distance of far more than 80 feet. The singer did not see the joke.

## FILIPINO DELEGATE TO CONGRESS

Copyright by Walden Everett.

Pablo Ocampo De Leon, the delegate selected by the Filipino assembly, is like his colleague, a lawyer by profession, a native of Manila and a member of a well-to-do family. He was also a Filipino patriot, was imprisoned by the Spaniards and afterwards exiled by the Americans, but after two years was allowed to return to Manila. He gave up politics for a time and devoted himself to his law practice, but he became director of La Patria and drifted back into public affairs and was elected to the assembly by the Nacionalistas. Mr. Ocampo is practically a pure-blooded Filipino. The majority of the assembly were anxious to have their delegate a true representative of their race. Mr. Ocampo was further favored both by his radically patriotic record and by his present conservatism. The assembly leaders considered it good policy to send a moderate nationalist to Washington. These two delegates will endeavor to obtain from congress the reduction of the import duty on Filipino sugar and tobacco. They say the cattle plague has killed off 90 per cent. of the working animals, and that the Filipinos are in a worse position than they have been for 30 years. They are also interested in the Japanese question, being, like all the Japacated Filipinos, suspicious of the Japanese.

## TO SAVE THE BUFFALO.

### APPEAL ISSUED FOR PRESERVATION OF AMERICAN BEAST.

Plan Proposed is to Have Herds Established on Suitable Ranges Under Government Auspices.

Moriden, N. H.—The American Bison society, with headquarters in this city, has issued an appeal for the perpetuation of the American buffalo. To best preserve the animal the society has planned a systematic campaign of ambitious proportions. The president of the United States is the honorary president of the organization, and the honorary vice-president is his excellency Earl Grey, governor general of Canada. The secretary is Ernest Harold Baynes, whose post office address is Sunset Ridge, Moriden, N. H.

The following is an extract from an address issued by the society:

"The American bison or buffalo, our grandest native animal, is in grave danger of becoming extinct, and it is the duty of the people of to-day to preserve for future generations this picturesque wild creature, which has played so conspicuous a part in the history of America. We owe it to our descendants that all possible effort shall now be made looking to the perpetual increase and preservation of this noble animal, whose passing must otherwise soon be a matter of universal and lasting regret.

"It is conceded, particularly by all authorities, that, owing to the uncertainties of human life and the changes in fortune and in policy among private individuals and private corporations, the buffalo cannot be perpetuated for centuries, and preserved from ultimate extinction, save under government auspices. At present nearly all the buffaloes in the United States are in private hands, and with few

exceptions are for sale to anyone offering a reasonable price. Many are sold every year, some for propagating purposes, and others to the butcher and the taxidermist. Moreover, most of them are in a few comparatively large herds, and should contagious disease at any time strike one of these, so great a percentage of the now remaining buffaloes might be wiped out at one blow as to make the perpetuation of the remainder practically an impossibility.

"In the belief that Americans generally will be found in sympathy with a carefully planned movement to save what might well be termed their national animal, and in order that all who desire may take part in the work of preservation, there was recently organized in New York city the American Bison society, which in accordance with its constitution has for its object 'the permanent preservation and increase of the American bison.'

"This society will seek to have established in widely separated localities, under government auspices, several herds of buffalo, on suitable ranges (preferably government land), such ranges to be chosen from a large number that have been recommended by competent persons. These herds, under proper management, should increase until the race was no longer in danger of extinction.

"With this end in view, the American Bison society has now begun an active campaign. A bill calling for national aid in the establishing of several buffalo herds is already under consideration. In the meantime the society purposes to make a determined effort to organize the interest of the public in the fate of the American buffalo, and presently bring it to bear in such a manner that it will result in the governments of both the United States and Canada taking active measures to insure that animal's preservation and increase.

"The officers of the society are prepared to do the work incidental to this campaign, but, in order that this work may be carried on promptly and vigorously, they must have the support of those whom they believe to be in sympathy with them. This support can best be given by joining the American Bison society and by urging others to join it. The work to be done requires money, and for this the society depends entirely upon membership fees and dues and occasional private subscriptions.

"The extinction of the buffalo would be an irreparable loss to American fauna; more than that, it would be a disgrace to our country. The passing of any great and noble animal is a calamity which all thoughtful persons should seek to avert. But the buffalo has a special claim upon us, inasmuch as the great service he rendered the country in early times were repaid with indescribable brutality and persecution. By a series of cold blooded massacres never equaled by any other nation calling itself civilized, a great race of animals numbering countless millions was reduced to numbers so pitifully small that for a time it was regarded as practically extinct. The least we can do now to partly atone for this ruthless slaughter is to join in measures to prevent what must otherwise be the final result of perhaps the greatest wrong ever inflicted by man upon a valuable wild animal."

### BUYS OLD CHURCH BUILDING.

Former Sheriff Bids in Edifice to Save It from Desecration.

Clayton, N. J.—To save a church from being converted into a pool and billiard room, ex-Sheriff Wilson T. Jones bought the Franklinville Presbyterian church. Mr. Jones bought the structure to save it from desecration because his mother worshiped there.

At the suggestion of the "B. G. T.," a secret society of 13 of the prettiest girls in the village, Mr. Jones will take out the old-fashioned benches, remodel and refurnish the interior and give the building for the use of the town for fairs, suppers and other such occasions.

The B. G. T. society will have charge of the building and hold its regular meetings there. The church was built in 1850, the land being purchased from Lawrence Cake, an old hotelkeeper of Franklinville.

Although the congregation was always small, the church flourished until the First Presbyterian church of Clayton was built, which took many of its members and has finally received them all.

### MISER HAD ODD SCHEME.

Bought Farms Cheap by Pretending to Be Foolish.

Cumberland, Mo.—Amos McElfish, a miserly hermit, who died at Springfield, W. Va., a short time ago, at the age of 90, left an estate valued at \$350,000, consisting of timber lands and farms in various counties of Maryland and West Virginia.

The deceased had a most novel scheme to purchase land at a low price. He would visit public sales dressed in a manner that would have shamed the average hobo, and, while bidding would act like a lunatic, making ridiculous offers, so that the auctioneer would knock the property down to him at a cheap figure in order to get rid of him, never thinking that such a seedy looking individual would have the money with which to make good his bid.

But the moment the property was declared his McElfish would produce the money and demand his right. He never married, and his heirs are scattered in various parts of the country.

### STATUE OF SHERIDAN

The above photograph is a model of the monument which is to be erected to the famous cavalry leader in Washington. The statue depicts the general in the act of reining in his horse and returning a salute of his men. Unlike any of the other statues in the national capital this one will not be placed upon a high pedestal, but will stand within three feet of the ground.

### A VERY PATRIOTIC FAMILY.

Kansas City, Mo.—"It is showing a great deal of patriotism when all of the male members of a family go into the government service," remarked the recruiting sergeant at the naval station. "Yesterday afternoon a man came in here whose name is Benjamin Harrison Adams, from near Joplin, Mo."

"He said that he wanted to join the navy, as all of his brothers were in the army or navy. Three of the Adams boys have seen naval service and two of them are in the army. The father

was an army man, too. It's very seldom that you see all of the family in the service, isn't it?"

Adams is the youngest of the five boys and has just passed his majority.

## SAVIOR OF OUR NAVY

INVENTOR HAS NOVEL DEVICE TO PROTECT BATTLESHIPS.

Proposes Chain Armor of Invisible Links to Ward Off Attacks of Hostile Torpedoes — Wants \$75,000 for His Secret.

Washington.—William Wilson of Paterson, N. J., appeared at the capitol the other day in the guise of the savior of the United States navy.

He has walked through the dark valleys that lie at the bottom of the sea. He has stood, hand in hand with a mermaid, on the crests of submerged mountains. He has communed with the shark and the scuttlesfish. He has learned from the swordfish how the waters of the mighty ocean may be hacked to pieces. The secrets of the seas are his and the mysteries of the waters are like A B C to him.

Therefore, William Wilson has thought it to be a grievous error to let this knowledge go for naught. William Wilson did not let it go for naught. He has invented a device that will mean millions, possibly billions, of dollars to the government's capacious pocket.

William Wilson has an invention that, at a nominal cost, will so fortify the ships of the American navy as to make the swiftest torpedoes of other navies mere minnows nibbling in vain at the sides of Uncle Sam's men-of-war. The strongest subsurface projectiles will strike the ships and fall vain and useless, to the bottom of the ocean when once the ships have been provided with the new invention.

William Wilson's contrivance is in the nature of an endless chain. It consists of links visible and invisible. It is to be hung around the hulks of vessel, and, in time of battle, it is to be dropped into the sea, completely surrounding the part of the ship that is under water. Torpedoes will get mired up in this chain-armor effect, kick against the links in useless energy, signal the surface that there's nothing doing in the destruction line, and then drop out of existence forever.

But William Wilson cannot give up his knowledge for nothing. He carries in every pocket copies of a bill he wants introduced providing that to William Wilson \$75,000 shall be given and that, in return for this paltry sum, William Wilson shall drop in on navy department officials and teach them how the ships of the navy shall be made impregnable.

William Wilson has a sublime confidence in his invention. He has pictures of it in sections, and as a whole. He has a water color painting of a battleship safeguarded by the chain-link fort.

He is a stout man, of medium height, with whiskers that look like the beard of Neptune. On his face there is a crimson hue that comes from braving the dangers of the deep, conversing with mermaids on the crests of submerged mountains and communing with the shark. He smiles but rarely. He is tremendously in earnest.

"The invention is entirely reliable," he explained. "I have tested it on a rowboat in Chesapeake bay. It will not injure a ship's speed, and it is absolutely impossible for a torpedo to make any impression on it. I am giving it away, when I say the government can have it for \$75,000."

William Wilson, however, has found no enthusiasm at the capitol regarding his invention. No member of congress cares to introduce the bill he carries in his pockets. One member told him he had been approached by John M. Jones of New York, who wanted \$50,000 to build an airship, and, having refused John Jones' request, he would have to refuse William Wilson's.

As William Wilson retired from the abode of the lawmakers, declaring he would return to take up again the fight for recognition, an irreverent employe of the capitol sang a few bars from "Swim Out, O'Grady."

But William Wilson regarded him with an expression of profound pity.

### \$150,000 SCRAP OF PAPER.

Claimant to Fortune Says He Found Will Under Floor Oilcloth.

Johnstown, Pa.—A peculiar contest was argued before Register and Recorder Griffith, as probate judge, when the authenticity of the writing purporting to be the will of Mrs. Frances Slick of Conemaugh township was in dispute.

An estate worth \$150,000 is involved. The woman died a few months ago, and no will could be found until lately, when the paper in dispute devising the estate to James Warfield of Conemaugh township was found under a floor oilcloth of her home.

Forty heirs under the interstate law contest Warfield's claim. No decision has been reached.

### Wear Gems Outside Furs.

New York.—A new fashion set by Mrs. Stuyvesant Fish interested the tea drinkers in the Plaza the other afternoon.

Mrs. Fish arrived at the Fifty-eighth street entrance of the Plaza when the rooms were thronged. She wore a long coat of broadtail fastened by a diamond ornament of great size. Except for these gems there was no dash of color to relieve the costume.

In a flash this innovation had sunk deep in the hearts of other women, and the way in which jewels were quickly shifted after Mrs. Fish had been seen, seemed to indicate that in future gems will not hide their light under fur coats.

## FILIPINO DELEGATE TO CONGRESS

Benito Legarda, who has been selected by the Filipino commission, composed of four Americans and three Filipinos, as one of the delegates to represent the Philippine Islands in the United States congress, was formerly one of Aguinaldo's most trusted lieutenants. He was for a time vice-president and treasurer of the Malolos congress, but he soon realized the hopelessness of armed opposition to American sovereignty, and so resigned to become leader of the Federal party, whose policy was submission. In recognition of his services he was selected as one of the three Filipinos on the Philippine commission when civil government was organized in 1901, a position which he has held ever since. Like the rest of his party he is in favor of independence, but only when the United States is satisfied that the Filipinos are ready for it. He is a man of middle stature, with black hair and mustache slightly touched with gray. He has the refinement that is born in a long line of aristocratic ancestors and the culture of a man who has traveled extensively. He is 54 years of age, was born in Manila and has been admitted to the bar, although he has long since given up practice to attend to his business interests. He is very wealthy.

## WILL INVADE CAPITAL

### OSAGE CHIEFS WILL PLEAD FOR THE PAPOOSE.

Going to Washington to Ask for Land for Recent Arrivals in Tribe—Want Restrictions on Sale of Property Removed.
